VOLUME 3. NO. 57

WEST LIBERTY, MORGAN COUNTY, KENTUCKY, THURSDAY, 11 JULY, 1912.

WHOLE NUMBER 109

## The Teacher's Institute Edition

### Our Greeting to Morgan's Teachers

Teachers of Morgan county, the COURIER welcomes you to West Liberty! We recognize and appreciate the magnitude of your work and the possibilities of your labor. Yours is indeed a profession fraught with grave responsibilities, and we trust that you will enter the school room next week determined to do your best. We believe that you will.

In your work the COURIER has a lively interest, and will be glad to co-operate with you in every way. The idea of making this issue an Institute number came to us too late to communicate with you and ask your aid in the preparation, and it is not all that we could wish. However, Mrs. Cora Wilson Stewart, County Superintendent of Rowan county, and our own County Superintendent Barker, contributed excellent articles, for which we heartily thank them.

But we are glad of our effort. Accept it in the spirit it is tendered, and perhaps many times in the future we can co-operate and make the COURIER an aid in your work. Our work is along similar lines and we would pull together.

Accept this copy with our compliments.

#### The Public School and the Press.

BY CORA WILSON STEWART.

The two greatest forces of the nation are the public school and the press. Though all other be at variance the teacher and the editor should be firm friends. Their interdependence on each other is so great that it is difficult to determine which most needs the other, but it is an assured fact that a closer alliance between the two would make both invulnerable.

Where the public school leaves off educating the individual the press begins. While many of the graduates of the public school may never enter college or university, most of them will become students in that great university—the Newspaper. Therefore, the press profits more by the efficiency of the public school than does any other institution. Education is the greatest friend of the press, and illiteracy is its most powerful foe. So the newspaper which encourages and advocates and advertises the public school is only fostering and developing its mightiest source of power. The newspaper has an opportunity to materially advance the interests of the school, and to give it support which it can draw from no other source. The newspaper owes not only to the school interests, which are by long odds the most general and the most important of all interests, but it owes it to itself to open at least one of its columns, weekly, to reports of educational progress in the county. Some of the most progressive counties in the State have failed to secure even a passing recognition of their worthy efforts because of the failure of their local newspaper to inform the public of the work which was being accomplished. The public school, about which all other interests of the Commonwealth are interwoven, has a claim to space in the newspaper in the State. The teacher must read in education, and the newspaper should not only support the teacher, but should introduce into the school room the best of the world's literature, and the best of the world's science, from the same teacher, and the same patrons that too, when perhaps neither

of the newspaper. Mutual support and helpfulness will promote the welfare of both the public school and the press. Let both recognize this fact, and begin to-day to aid and advance each other.

#### Teachers, Cooperate.

BY T. N. BARKER.

To the teachers of Morgan county, this is Institute week and next week our schools will begin.

The question that is interesting me at present, is: "are we better prepared for the work than we were last year?" I feel that we are and that we have a greater determination to succeed than last year. Though 25 per cent of our teachers are beginners, yet they have been well trained in the Normal Schools of the county or State and are of a high class of young ladies and gentlemen, and I am expecting much of them this year. I believe that Morgan county has as high a class of teachers, if not the highest, of any county in the State. Seventy per cent of our teachers have normal training the other 30 per cent are teachers of long experience.

We have a better class of buildings, better furniture, a better class of teachers and a better class of pupils.

and still there is room for much improvement. I want the teachers and trustees in each district in the county to select one boy with an incentive for farming for the Corn Club. That would give us 80 boy-farmers. Select a boy who can get as much as one acre of ground, and who is willing to prepare it properly and learn all he can about raising corn, and we soon will quit shipping corn into Morgan county.

I would like for each teacher to take their county paper so they can keep themselves and school informed as to what is going on in the rest of the schools of the county. There will be some interesting article each week on the schools and conduct and about the Supervisors and how the Enforced Attendance law is working. The Supervisor will visit each school in his territory sometime during the term and teach for at least one week, hence the necessity of keeping in touch with each other in regard to those matters. It is only by cooperation with every force and every influence that makes for the advancement of education and the betterment of society that we as teachers can hope to reach the full fruition of our labor.

#### Something New Under the Moon.

The above was the subject of a lecture delivered to a large audience at the court house Tuesday evening by Mrs. Cora Wilson Stewart, Superintendent of Schools of Rowan county, noted educator and lecturer. Lack of space forbids us to give a full account of the lecture as we would like, suffice it to say that the subject, though susceptible of many constructions, as Mrs. Stewart told us, related directly to the moonlight, or night schools, of Rowan county, founded by her about a year ago. Even to those of us who were familiar with the workings of the moonlight schools, from the many favorable press reports throughout the state, the lecture was a revelation and an inspiration. Imagine the spectacle of grandparent and child sitting in the same class, from the same teacher, and the same patrons that too, when perhaps neither

the parent nor grandparent could read nor write.

This movement is destined to become State, age, nation wide and having its origin in the mountains of Kentucky it ought to be, and is, deeply gratifying to our people.

Mrs. Stewart has already accomplished great things for the cause of education in the south, but her career of usefulness is just beginning. Imbued with an intense love for her work; thoroughly equipped by nature and by research, she occupies a high position in the educational councils of the country, and the people of Morgan county were fortunate in having an opportunity to hear her.

#### Judge Hays Speaks.

Hon. J. Smith Hays, Winchester, candidate for the Democratic nomination for Appellate Judge of the 7th district, was here Monday, and while he was not billed to make a speech his friends insisted that he speak anyhow. They were anxious to know if the Clark County jurist was able to meet the Republican nominee, whoever he may be, on the issues of the campaign this fall. Those of us who knew Judge Hays and had heard him speak were already thoroughly satisfied on that point and those who had not were so fortunate as to

know him were fully as well satisfied after they had met him and heard him speak. Judge Hays is one of the leading attorneys of the Eastern Kentucky bar, he is a native of Knox county in the 11th Congressional district and knows these people as well or better than any other man in the 7th Appellate district. He is, not only well but favorable known throughout the entire district and his nomination would bring to the Democratic ticket many a vote this fall that has heretofore voted the straight Republican ticket. Speaking from the standpoint of legal ability Judge Hays ought to have this nomination. From the standpoint availability there is nothing else for the Democrats to do but to give it to him. Notwithstanding the fact that this district is largely Republican recent developments in that party have made it possible for a Democrat to win in November. The Standpat Republicans and the progressive wing of that party are further apart than were the Gorrillas and Jayhawkers of anti-bellum days. Will they patch up their differences? No! Then we have a chance to win and Judge Hays is the man to "tot" our standard.

#### Blakey Fills Appointment.

Hon. Theodore B. Blakey, of Deatlyville who wants to be the Republican nominee for Appellate Judge of the 7th district, and whose announcement to speak appeared in the Courier several weeks ago, was here Monday to tell his story. Mr. Blakey confined himself principally to the issues between him and Judge A. J. Kirk, of Paintsville, his only opponent for the nomination. He said, in the course of his remarks that he was progressive, but the general tone of his speech didn't leave that impression. Mr. Blakey's reception in this county was somewhat frosty, due to the fact that Morgan county Republicans are mostly of the standpat variety and almost solidly for Judge Kirk.

Mrs. J. T. Gevedon, of Pikeville, is visiting her son, W. H. Gevedon.

#### Fourth of July at Cannel City.

The 4th of July celebration at Cannel City was one of the best conducted affairs of the kind ever held in the county. There was but very little drinking and the best of order prevailed throughout. The amusements provided for the visitors were clean and up-to-date. The crowd was immense and the management is to be congratulated upon the manner in which the festivities were conducted.

#### Give Your School a Name.

Teachers, name your schools i. e., give them appropriate names; not some meaningless term suggestive only of the locality of the school house. You can easily think of some fitting name that will appeal to the pupils and patrons alike, make them proud of their school and at the same time raise your stock of teaching ability several points above far in their estimation. Try it.

Too Bad. Many a good deed has been spoiled by being done at the wrong time.

## GIVE THE MOUNTAINS A CHANCE

JUDGE A. J. KIRK FOR APPELLATE JUDGE

Judge Andrew J. Kirk, of Paintsville, Johnson County,  
Kentucky is a candidate for Judge of the Appellate Court  
from this the Seventh Appellate District. He has served  
two terms as Circuit Judge of the Twenty-fourth Judicial  
District, being elected the last time without opposition  
from either Republicans or Democrats. He is seldom re-  
versed in the Court of Appeals and has made a record to be  
proud of as Circuit Judge. He is well qualified to fill this  
office, is the logical candidate at this time, is a deserving  
Republican, and is a mountain man.

This office has been held by a Montgomery County man  
for the past forty-six years. It is time the mountain peo-  
ple were given some representation. Friends of Judge  
Kirk over the district are confident he will win, and he is  
becoming more popular each day.

The Primary election will be held on Saturday August  
3rd. Let every Republican in the county go to the polls  
and help Judge Kirk, a mountain man, and the son of an  
old soldier, win the nomination.

great masses of the people  
can have no hope of relief  
from the heavier growing  
burdens from Taft and the  
monopoly-controlled Repub-  
lican party, and no one can  
have confidence in the pro-  
gressive Republican element  
so long as they are dominat-  
ed by Roosevelt.

So the only hope that is  
held out to the farmer and  
the laborer is the election of  
Wilson and Marshall, and  
that is as surely certain as  
mundane affairs can be.

### Schools and Teachers.

An ancient king once asked a  
philosopher the question: "What  
shall we teach our boys?" The  
sage replied: "Teach them some-  
thing that will be of use to them  
as men." That answer is the  
sum total of the purpose of  
the school. In this age when  
the struggle for existence is so  
fierce, the better equipping the  
boys and girls for the battle of  
life is the paramount intent of  
our public educational scheme.  
From this viewpoint I am writ-  
ing and what I say may displease  
some, as wholesome truths usu-  
ally do, but this is a question too  
momentous to allow temporizing.

The thing that cripples the  
cause of public education in Ken-  
tucky is that we have so few  
professional teachers, or, to ex-  
press it more aptly, teaching in  
this State has not arrived to the  
dignity of a profession. Few  
prepare to make teaching a life-  
work. Ergo, there is a lack of  
definite purpose, an absence of  
soul, in the attempt that makes  
public education almost farcical.  
Our boys obtain certificates and  
secure schools in order to earn  
money to prepare for something  
else, our girls to be able to buy  
an elaborate trousseau, and  
neither have the love for the  
work nor the realization of re-  
sponsibility that is necessary to  
real teaching. Too often it is a  
despised stepping-stone to the  
ultimate vocation of life.

Our legislators have been very  
short-sighted in regard to the  
public schools. The pay for  
teaching should be made suf-  
ficiently remunerative to attract  
and hold the best intellects, and  
the standard elevated and the in-  
competents weeded out. Those  
naturally qualified should con-  
stitute the profession. I say  
naturally advisedly, for the mere  
holding of a first-class certificate  
is not proof conclusive that the  
holder can teach. Teachers,  
like poets and musicians, are  
born, not made.

Omniscience evidently looked  
ahead for the boys and girls and  
so ordained that they would get  
and education despite the earn-  
est endeavors of some teachers  
to dwarf their intellects. Other-  
wise their condition would be  
pitiable. Teaching is a drawing  
out, not a filling up. The pur-  
pose of the school is to guide  
and direct the ever growing in-  
tellect of childhood, to train the  
tendrils of thought, as they

grope blindly, to places of truth  
and worth. The real teacher is  
the one who can stimulate and  
encourage and keep pure this  
thought-growth; who can arouse  
the hunger for knowledge in the  
souls of the boys and girls. And  
the capability to "pass" the ex-  
aminations for certificates is lit-  
tlesignificance of this power.

No one can be a real teacher  
who does not love the work.  
There can be no success in any  
vocation unless the whole soul,  
the life interest, be in it. The pay  
should be ample, but the money  
should be the least consideration  
with the teacher. When we  
have those entering the profes-  
sion as a life-work, who believe  
that their mission in life, the  
cause of education will have com-  
menced its forward move. The  
man or woman who teaches  
school for no other reason than  
to earn money to prepare for  
something else is committing a  
crime against childhood. The  
opportunities of the little ones  
are too precious to be stolen  
from them.

### Life Insurance Policy

The Insurance business is comparatively new  
to Eastern Kentucky. People, as a rule, have not  
had the time or opportunity of learning what con-  
stitutes good insurance.

We believe that you would like to know more  
about the business—It's honest, sane, business-like  
and instructive.

Write or call on us at once---To-day!  
Don't put it off until it is too late!

Delays are dangerous!
